## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 65-77 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hansen (4,642,786).

Hansen discloses first active marker (one of the retransmitters 20), second active marker (another one of the retransmitters 20, noting that a plurality of retransmitters at different targets are disclosed in col. 25, lines 27-40) and a detector (the receiver portion of the transmitter/receiver ii). Hansen fails to disclose the markers as having a diameter of 1-2 mm. However, Hansen discloses that the markers are very small and that the size disclosed is merely an example (col. 25, line 67 to col. 26, line 17). Further, it is old and well known in this art to make the markers as small as possible in order to obtain the advantage of making them less intrusive. It would have been obvious to make the Hansen markers of a size within the claimed range so that it too would have this advantage. As to claim 66, for example, Hansen fails to disclose an RF generator. However it is old and well known in this art to use an RF generator to generate an RF signal in order to obtain the advantage of making the signal detectable by receivers at a

considerable distance. It would have been obvious to use an RF generator with the Hansen device so that it too would have this advantage.

### ***Double Patenting***

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 65-77 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-8 of U.S. Patent No. 6,363,940 and claims 1-8 of U.S. Patent No. 6,698,433. Although the conflicting claims are not identical, they are not patentably distinct from each other because the differences between the claims are obvious differences

***Terminal Disclaimer***

5. An attorney or agent, not of record, is not authorized to sign a terminal disclaimer in the capacity as an attorney or agent acting in a representative capacity as provided by 37 CFR 1.34 (a). See 37 CFR 1.321(b) and/or (c).
6. The Power of Attorney submitted on April 21, 2008 is acknowledged by the examiner, however a new Terminal Disclaimer is required since the Power of Attorney was filed after the Terminal Disclaimer.

***Response to Arguments***

7. Applicant's arguments filed January 8, 2008 have been fully considered but they are not persuasive.
8. Regarding the arguments of section A:
- 1<sup>st</sup> paragraph (page 7):* Applicant's arguments fail to comply with 37 CFR 1.111(b) because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references.
- 2<sup>nd</sup> – 4<sup>th</sup> paragraph (page 8-9):* In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., cylindrical section, field strength) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification,

limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

### ***Conclusion***

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
